Peter Drucker (1909-2005) Management Consultant, Educator & Author

# Myth busting

## MYTH:

### Apprenticeships are...

- Less valued by employers
- 2<sup>nd</sup> class option
- Less career opportunities
- Will earn less than a university graduate with no work experience

It's NOT a  
second-class option!  
It's an EQUAL option!

## TRUTH:

### Apprenticeships are...

- Often misunderstood by parents
- Hard to win a place – can't be bought!
- With a few years work experience – it's a fast-track to a career
- More sought after by employers
- Social life – both with other apprentices as well as your work colleagues

It's NOT an easy route!  
It's an ALTERNATIVE route!

It's NOT a back-up plan!  
It's ANOTHER plan!

# What exactly is an apprenticeship?

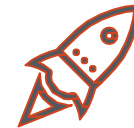

A nationally recognised qualification, including university degree, for free!

Starting salaries from £18,000 to £25,000 a year plus employee benefits

From 18 months to 5 years

Start your career straight out of school!

Personalised on-the-job training and mentoring

Grow your professional network and make lots of new friends!

# JFS Alumni – Myah Genish

**2022:** Finished her education at JFS

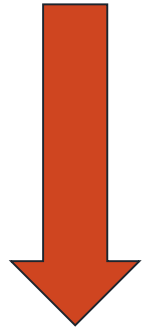

**Today:** An apprentice at WTW –  
Willis Towers Watson  
A British-American  
multinational company providing  
insurance and consultancy services  
in more than 140 countries.

- What do you love about being an apprentice?
- What difference did the tuition, mentoring and coaching make to you in your ability to win this apprenticeship?
- By choosing to do an apprenticeship, what's been the impact on you/your life?
- What would be your advice to other young adults?

# Different pathways, different choices

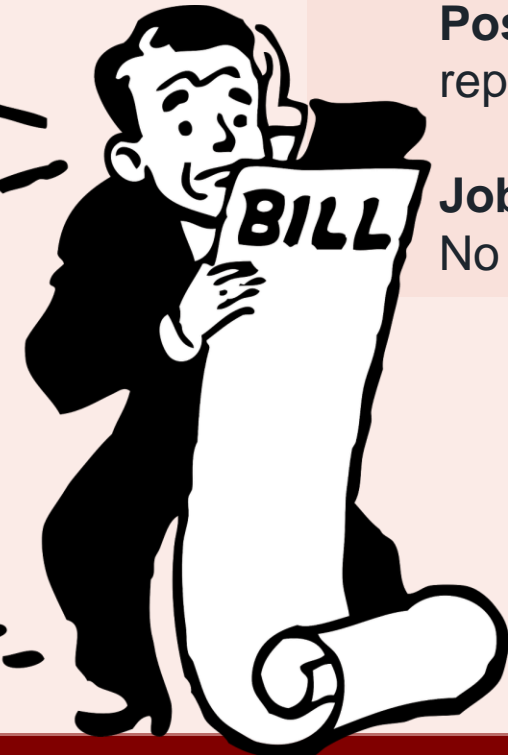

**University** – 3 years – **Fees £30K**
